Verse 1: Chingy

Gangsta as a Cadillac DeVille wit fo's

This for all my thundercats that feel my flow

To slang weight, my young guns will steal ya o's

Catch a bellin down Lukerson & Hunt de-real a ho

In ya top piece, suburb mart, ya not street

I know fools from Wilson that'll whack ya, ya got beef

Used to go to Skate King back when bangin was in

And if the fiends aint have 20, we would slang it for 10

Drankin' the gin, posted on the corners at night

Sparkin pound while my homies in the street, slapped right

Ride bikes, patrolin' the hood, keepin' out cops

Regals and drops, reppin' cuz beak in my block

Wild like rocks, my mentality got from my pops

And saints, bustin back in '90 hope you got from the shots

Put it down for the town and I gang wit us

St. Louis did it derty, throw yo hood up did you know we from the.

Tity-Boi, Southside

Bad limp, fo' 5's on the hip

Don't know why I'm known to slip when I get high

One time but no more, won't sleep until the mornin'

Somebody need to take the trash out and I'ma do the chores
Softer than a cactus, put it on like actors
Hustle in the shadows on the bricks and they couldn't catch us
Gat still tucked, in my waist by my price time
Cuz my chain hang so low my tongue bang wit my pipe line
Walk around, all day wit this beam like it's night time
You can see em a mile away, but it'll touch ya from blind side
Flipped it, first to finish to the car, that's a nice ride
Dig it, they spin they purchase round here they get kite high
Deal it, it's my description, my picture, my composure plot
This is how I get through 2 d's, niggaz!
My side we ride my crew's, iller, iller! Hook: Chingy

I got the game on lock, you barely a holdin' tank
Get drunk, get to shootin bust the whole club out
Us thugs out, I'm tryin' to dumb out, 'til I get drunk out
That's just the way I am, don't look down on me
My gun's a open bar, free rounds on me
And I'm an eastside nigga so I aint no punk
I make the crowd get it crunk and do the eastside stomp
Young Chingy let em know, that the deal is a fool
And I'm a carpenter's dream, I'm in love wit the tools
Lay low when the heat bust, off in the airr
