

# The Vision (Let Me Breathe) [feat. Jessie Ware]

## Joker

Feat Jessie Ware & Freddie Gibbs

Come down, keep confusing me, can't you see, can't you see

You are not alone

You the throne, cryptic ... who we choose

The one to choose who is who

What's wrong?

If I wanna talk big, that big I can play it on my own

Let go, so complicate little game you created

Can you crack the code?

Can't be without you, see without you, breathe without you, feel without you

Just let me breathe X 4

Gotta be a thing, gotta be a thing, gotta be a thing

I'm like last dragon, who's Leroy with

... I got a lot of cash...

Girl get up in this...

Baby girl let me ... I can handle that

Now put it down, welcome to the bed

Press ... when I hit your town

... butter brown, papers candy red

... all in my face

When I step up...all in my name

... have a little fun...

Gotta get my passport back...

I just wanna live for the moment

Car wash top down... your best friend looking on me

Better hurry up and get upon it

Just let me breathe

Good time come down would you let me breathe

Just let me breathe

... time come down, would you let me breathe

Just let me breathe

... down, would you let me breathe

Just let me breathe

Gonna be a thing, gonna be a thing, gonna be a thing.
