

In the End

Family of the Year

When you feel like
No one loves you
And the world seems nothing but against you
Wanna feel like someone you can talk to
The two of us there's nothing we can't get through 'Cause in the end (in the end)
In the end (in the end)
In the end
Like a friend you can depend on When the night seems darker than ever
I wanna break the day together
When the rain comes falling and you're stranded
I'll help you shuffle the clothes that you were handing 'Cause in the end (in the end)
In the end (in the end)
In the end
Like a friend you can depend on
You can lie
You can cheat
You can run and still be great You can lie
You can cheat
You can hurt someone and still be sweet We run around spending most of our lives
Trying to have a good time
Just to stay in the line
Woh oh ooohh I wanna break this thing we wouldn't all let we have
And we'll give it a shot
'Cause you're all that I've got
Woh oh ooohh In the end
In the end
I am your friend
When you're broken into pieces
I'll get your car and take it to the places
Where we parked high above the city
Where the lights sparkles so pretty 'Cause in the end (in the end)
In the end (in the end)
In the end
Like a friend you can depend on
You can depend on You can lie
You can cheat
You can run and still be great You can lie
You can cheat
You can hurt someone and still be sweet
We run around spending most of our lives
Trying to have a good time
Just to stay in the line

Woh oh ooohh
I wanna break this thing with all that we have
And we'll give it a shot
'Cause you're all that I've got

Woh oh ooohh

In the end

In the end

I am your friend
