

Dirty Little Thing

Velvet Revolver

Can't stop thinkin'
Must've been trippin'
This evening
My mind is racing demons
And all of my feelings are numb Yeah and when I roll
With my head in the wind
And I feel like the king of the Dead men wishin' they had
Gotten together with you girl
But you're a dirty little liar
With a message of obsession to come
You got your head in the clouds
And your world's upside down Get away from the
Life you're living
Get away from the man
That's stealing your life
Get away from the
Drugs you're taking
Get away from the
Film of sex in your life Can't stop drinking
I'm cold, kicking and bleeding
The wine is numbing feelings
And all of my memories are gone Yeah and when I roll
With my head in the wind
And I feel like the king of the
Dead men wishin' they had
Gotten together with you girl
But you're a dirty little liar
With a message of obsession to come You got your head in the clouds
And your world's upside down Get away from the
Life you're living
Get away from the man
That's stealing your life
Get away from the
Drugs you're taking
Get away from the
Film of sex in your life-Solo-You got your head in the clouds
And your world's upside down Get away from the
Life you're living
Get away from the man
That's stealing your life
Get away from the
Drugs you're taking

Get away from the
Film of sex in your lifeGet away
Get away
Get away
Get awayGet away
Get away
Get away
Get away
