

# Dirty Little Thing

## Velvet Revolver

Can't stop thinkin'  
Must've been trippin'  
This evening  
My mind is racing demons  
And all of my feelings are numb Yeah and when I roll  
With my head in the wind  
And I feel like the king of the Dead men wishin' they had  
Gotten together with you girl  
But you're a dirty little liar  
With a message of obsession to come  
You got your head in the clouds  
And your world's upside down Get away from the  
Life you're living  
Get away from the man  
That's stealing your life  
Get away from the  
Drugs you're taking  
Get away from the  
Film of sex in your life Can't stop drinking  
I'm cold, kicking and bleeding  
The wine is numbing feelings  
And all of my memories are gone Yeah and when I roll  
With my head in the wind  
And I feel like the king of the  
Dead men wishin' they had  
Gotten together with you girl  
But you're a dirty little liar  
With a message of obsession to come You got your head in the clouds  
And your world's upside down Get away from the  
Life you're living  
Get away from the man  
That's stealing your life  
Get away from the  
Drugs you're taking  
Get away from the  
Film of sex in your life-Solo-You got your head in the clouds  
And your world's upside down Get away from the  
Life you're living  
Get away from the man  
That's stealing your life  
Get away from the  
Drugs you're taking

Get away from the  
Film of sex in your lifeGet away  
Get away  
Get away  
Get awayGet away  
Get away  
Get away  
Get away
