

Sky Is the Limit

DJ Antoine & Mad Mark

Sun is coming up over the hill
I can hardly sits there
I got the will and I'll find a way
I'm not afraid Waited for the chance
all over my Life
I can't watch it go by
now is the time
It's our choice to make
every breath we take
No more praying
off your knees
play your heart out
till your finger bleed
Yesterday's history
tomorrow's a mystery
but today we're gonna shine So put hands up
and touch the sky
cause the sky is the limit
tonight
we are all born to fly So put hands up
and touch the sky
cause the sky is the limit
tonight
we are all born to fly
Reaching for a higher elevation
a new destination
new revelation
find it in your heart
that's where you start, yeah
No more praying
off your knees
play your heart out
till your finger bleed
Yesterday's history
tomorrow's a mystery
but today we're gonna shine So put hands up
and touch the sky
cause the sky is the limit
tonight
we are all born to fly So put hands up
and touch the sky
cause the sky is the limit

tonight
we are all born to flyNothing to fear
but fear itself
you got nothing to lose
so give it hell
I'm not wasting more dimes
on wishing wells
we gotta rise up hightSo put hands up
and touch the sky
cause the sky is the limit
tonight
we are all born to flySo put hands up
and touch the sky
cause the sky is the limit
tonight
we are all born to flyWe are all born to fly
born to flywhen the sky is the limit
the sky is the limit tonight
