

LOGOUT (feat. Chance the Rapper)

Saba

[Intro]

Right away, ayy [Chorus: Saba]

If you press logout you get forgotten, watch a post but a reminder, just about how boring our
lives ar-ar-ar-are

Look at how much fun I'm having', ain't' no beauty in the actions of procrastin' till you fall over

I see her singular legs are naked

I seen her sippin' Henya'

I seen famous people all over

I don't want no autograph, I just wanna' follow bad

Maybe tan, till you fall over

[Verse 1: Saba]

Playback, say that

That just the way that the game go

After the rain is a rainbow

I see a project you pay for

She keep forgetting the day old

If I can not log, and they started a rumor that I ain't got shot like a day ago

I don't walk without my headphones

I don't got cable in my crib

I don't even know how we got here

Me independent, is my fear

Government look like the mafia

[?] now is you watching

Internet turned me into another man

Solitaire more than game with your car

Can't change the channel, it'll stay in our heart

Stay in the public and pray to your God

A validation to insecure

Carry those duff's from 140 to 180, you posted your story

I'm from the 2-90, 2 sides to each story

Yeah I be your friend, but you can not follow me

[Chorus: Saba]

If you press logout you get forgotten, what's a post but a reminder, just about how boring our
lives ar-ar-ar-are

Look at how much fun I'm having', ain't' no beauty in the actions of procrastin' till you fall over

I see her legs are still naked

I seen her sippin' Henya'

I seen famous people all over

I don't want no autograph, I just wanna' follow bad

Maybe tan, till you fall over [Hook]

I know people with they friend request as their homepage
Ain't' put a picture on they wall since the stone-age
Feel locked up in they own cage, when they on stage[Outro: Saba]
