

# Only Love Is Real

Carole King

As I bask in the glow of a just-lit fire  
Feeling the warmth as the flames grow higher  
I think it's true that nothing  
is really new under the sun  
Watching a new love grow  
from old love's embers  
Yesterday's gone but today remembers  
Doesn't it seem to come down the same for everyone  
(Chorus)

Only love is real  
Everything else illusion  
Adding to the confusion of the way we connive  
At being alive  
Tracing a line till we can define  
The thing that allows us to feel  
Only love is real  
Childhood dreams like muddy waters  
Flowing through me to my son and daughters  
Everything I ever thought is confirmed as truth to me  
Even as I see the way that I want to go now  
Still I had wished I had known what I know now  
Maybe I could have spared you  
Giving your youth to me  
(Chorus)

Only love is real  
Everything else illusion  
Adding to the confusion of the way we connive  
At being alive  
Tracing a line till we can define  
The thing that allows us to feel  
Only love is real
