

What Did I Do To Your Heart

Jonas Brothers

Baby girl I'm just a bit confused
You've been acting like you've been abused
By me lately
What's going on?
All I do is treat you with respect
All the best and never nothing less
But you continue to cry
And I just don't know why What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it, your heart?
What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it, your heart?
All I ever get is attitude
Constant never ending bad mood
From you baby
What's going on?
All I need is just an answer please
So I can show you what you mean to me
But you continue to cry
And I just don't know why What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it, your heart?
What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it, your heart?
(What did I do to your...)
(What did I do to your...) Heart What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it, your heart?
What did I do to your heart?
Tell me what did I do to your heart?
Did I break it apart?
Did I break it, your heart?
