

Copy Cat (feat. Kelis)

Skream

Aw, come here copycat
You're my puppet
You know I love it
Aw, come here copycat
You're my puppet
Look at how it work baby girl
You could do it, you could do it
You you could do it, I did it already Look at you, you're the best thing ever
... remember, so clever
I'm such a fan of the dress
That's why I bought it five years ago
I'm such a fan of your hair
That's why I cut it (I cut it, I cut it)
(You want a happy birthday)
Aw, come here copycat
You're my puppet
You know I love it
Aw, come here copycat
You can sit on my lap
Look at how it work baby girl
You could do it, you could do it
You you could do it, I did it already Do you keep yourself fresh
You know the truth
And if I wasn't myself
I want to be like you
I'm mesmerized by your sound
So underground, you're just sporadic
(The sun and the moon and the stars)
And the choreography is so angelic
(Just so in)
Aw, come here copycat
You're my puppet
You know I love it
Aw, come here copycat
You can sit on my lap
Look at how it work baby girl
You could do it, you could do it
You you could do it, I did it already
