

End of the World

Cold

Everyone came around here
Everyone else got sick
And watched the clock tickin' slowly
Everyone knew the ending
Opened a bag of tricks
And stumbled over their ownThey blew minds away
Sort of the crippin
Just like thunder
And it's gone today
I'm so happy that it's on
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the worldWell it's far away
In a hurricane,
Twisting slowly
Now it's gone today
I'm so happy that it's onWell it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the worldSmile on, my love, my gun
Smile on, my love, my gun
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the world
Well it's the end of the worldWell it's my world, my love, my gun
Well it's my world, my love, my gun
