La la la  
La la la  
La la la...I got on a boat on a hot sunny day  
To get out of this town  
But the tarmac was melting and the people seemed to sway  
Stuck in the underground To the isle of (?) rainclouds and (?) wishing tree  
I wanna be with you  
On the slow boat that lands on misty sea  
I wanna be with you I pulled out the harbour with precession behind  
and I'm feeling the love of you  
So you better get to charge until I see you again  
You know just what to do  
If you're caught up in the junk boat sea  
I wanna be with you  
On a hill where the mountains are high trapeze  
I wanna be with you Ooh, nah nah, aaaah If you're a landlord, the social (?)  
I wanna be with you  
On an isle of regret/rainclouds & (?) seas  
I will be there with you Ooh La la la  
La la la  
La la la...  
I wanna be with you  
La la la  
La la la  
La la la...  
I wanna be with you
