

# Stranger In a Room (feat. Oliver Sim)

Jamie xx

You wanna disappear in a crowd  
Just a stranger in a room  
Wanna change your colours just for the night.  
With no word of it following you home  
No word of it following you home  
No word of it following you home  
No word of it.Ooh, ooh, ooh  
You're just a stranger in a room  
ooh, ooh, ooh  
You're just a stranger in a room  
Tonight I fell for the outline  
Of someone I've wanted to know  
Cos here, under the blue lights  
There's always someone I've wanted to know  
With no way of it working back home  
No way of it working back home  
No way of it working back home  
No way of itAnd I don't wanna waste my time  
On an unfamiliar eye  
Been looking in from the outside  
I come in  
Ooh, ooh, ooh  
You're just a stranger in a room  
ooh, ooh, ooh  
You're just a stranger in a room
