

# Born This Way

## Thousand Foot Krutch

Because I was born this way,  
I got lightning running through my veins,  
Ain't nobody gonna stop this train,  
So hop on board, or get out the way'  
Cause I was born this way,  
I got lightning running through my veins,  
Ain't nobody gonna stop this train,  
You can't stop us, we can't be stopped  
Ever since I was an infant, I spit it,  
Ate mics, and rocked Lennon,  
In first grade, I drank my juice with rocks in it  
Never looked down, 'cause up, had more stains  
in it Always been about the heart, never cared who's winning'  
Ha!... I chase the light, like emcees on the wrong mic  
My blood was the wrong type, so I had to give my life  
And relearn, the minute that I felt real  
life  
I'd rather create, than follow, welcome to the knife  
Because I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
So hop on board, or get out the way'  
Cause I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
You can't stop us, we can't be stopped  
Feel that smoke rise, to the sky  
Split, like a dollar sign  
Flip, when ya hear that beat, rip like it's dynamite  
Cold, like a winter street, loud, 'cause I wanna  
be, The mic is my weapon, so I spit this artillery  
Ha!... I chase the light, like emcees on the  
wrong mic, My blood was the wrong type, so I had to give my life  
And relearn, the minute that I felt real life, I'd rather create, than follow, welcome to the  
knife  
Because I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
So hop on board, or get out the way'  
Cause I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
You can't stop us, we can't be stopped  
Let's go, Hands up in the sky, hands up you can learn to  
fly  
Hands up in the sky, hands up you can learn to fly  
Put 'em up, Hands up in the sky, hands up you can learn to fly  
Hands up in the sky, hands up you can learn to fly  
Hands up in the sky, hands up you can learn to fly  
Hands up in the sky, hands up you can learn to fly  
Put them hands up in the sky, hands up you can learn to fly  
So hop on board or get out the way

Because I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
So hop on board or get out the way'  
Cause I was born this way  
I got lightning running through my veins  
Ain't nobody gonna stop this train  
You can't stop us we can't be stopped
