

Easier Said

Alessia Cara

Hey girl with the empty eyes
Open up, you know you look prettier when you smile
Look around, it's a decent life
You feel too much, pick up your feet and make use of your time
They sure know how to talk up
a storm
Rain down on your petty parade
Trying to find the cure
Bask in your distress a little bit more
'Cause a sad face don't go away that easy
Healing and patience are leveraged
Don't place the blame on your heart, just to shut 'em up
There ain't a rush to recover
'Cause it's easier said, it's easier said than
Healing and patience are leveraged
Don't place the blame on your heart, just to make 'em stop
Just take your time to recover
'Cause it's easier said, it's easier said than done
Hey boy, with the painted frown
Listen up, shake off the cloud that follows you around
Think fast, change your mood and be approachable
Man up, crawl your way up off the ground
They sure know how to talk up a storm
Rain down on your petty parade
Thinking they found the cure
Bask in your distress a little bit more
'Cause a sad face don't go away that easy, no
Healing and patience are leveraged
Don't place the blame on your heart, just to shut 'em up
There ain't a rush to recover
'Cause it's easier said, it's easier said than
Healing and patience are leveraged
Don't place the blame on your heart, just to make 'em stop
Just take your time to recover
'Cause it's easier said, it's easier said than done
So what if you're a bit bitter before you recharge
I mean, I spend my days complaining to a guitar
Remember everyone is coping with their own scars
And just a little bit of time can get you so far, yeah
Healing and patience are leveraged
Don't place the blame on your heart, just to shut 'em up (No, no, no)
There ain't a rush to recover
'Cause it's easier said, it's easier said than
Healing and patience are leveraged (Healing and patience are leveraged)
Don't place the blame on your heart, just to make 'em stop (Make 'em stop)
Just take your time to recover (No, no)
'Cause it's easier said, it's easier said than done
Done, done, done, done

Done, done, done, done
Done, done, done, done
(It's easier said, it's easier said than done)

Done, done, done, done
Done, done, done, done
Done, done, done, done
Done, done, done, done

(It's easier said, it's easier said than done)
Done, done, done, done
