

# Written In The Scars (feat. Wrabel)

## Galantis

Wild kites darling we hold on  
We grip with white knuckles we hold strong  
They say love should fit like gloves  
Perfect equals  
If it's meant to be  
You just know it, you just know  
But you and me will never be the perfect people  
Of all the stories that they've told  
What if our love is written in the scars  
And it took time but we built love  
From all these broken parts  
And that's just fine we'll be fine  
Just stay true  
We can't fix all our fractured bones  
And that's just it  
It's better off we don't, love  
And they say love should fit like gloves perfect equals  
If it's meant to be  
You just know it you just know  
But you and me will never be the perfect people  
Of all the stories that they've wrote  
What if our love is written in the scars  
We built love from all these broken parts  
and that's just fine that's just fine  
Stay true  
Me and you  
Stay true  
Stay true  
Me and you  
Stay true
