

Sanctuary (feat. Charles Esten & Lennon & Maisy)

Nashville Cast

Turn the light off
Go to bed
Tell me all about the day you had.
Lay beside me
It's time to rest
You can close your eyes you've done your best. Let me be your sanctuary
Let me be your safe place to fall
I can take away your worries
The refuge from it all.
All this time
We have together
Is our shelter from the rain.
I will share the weight you carry
Let me be your sanctuary. We have weathered
Through the storms
Taking comfort in each other's arms. When the dark clouds come again
I will lift you up and take you in. Let me be your sanctuary
Let me be your safe place to fall
I can take away your worries
The refuge from it all.
All this time
We have together
Is our shelter from the rain.
I will share the weight you carry
Let me be your sanctuary.
I will share this weight you carry
Let me be your sanctuary.
