

# Say It Again

Don Williams

(Bob McDill) Oh, all I needed

Was one look

One magic moment

Was all it took.

From that moment

I love you so

Now that I found you

I'm never gonna let you go. C'mon say it

Say it again

It's sounds so good

Say it one more time

And then.

Oh, if you mean it

Say it again

The hard part's over

And the lovin' part begins.

--- Hums with Instrumental --- Oh, hold me closer

Make me warm

I feel wanted

Here in your arms

I've been lonely

For too long

I've waited a lot time

For you to come along. C'mon say it

Say it again

It's sounds so good

Say it one more time

And then

Oh, if you mean it

Say it again

The hard part's over

And the lovin' part begins.

C'mon say it

Say it again

It's sounds so good

Say it one more time

And then

Oh, if you mean it

Say it again

The hard part's over

And the lovin' part begins...
