

Loyal

The Interrupters

Loyal till death tell death what we do
We stand together we stand by our crew
X2We're bound by blood and we're bound by a slave
Seen eachother suffer and we've seen eachother bleed
When times get tough you always stand with me
You think I'd bid its my family
HehLoyal till death tell death what we do
We stand together we stand by our crew

X2

Heh

December 1 another year watch up the grove
Even when I lonely I'll never be alone
We got one heartbeat Ya
We got one soul

Got solidarity only thing we knowLoyal till death tell death what we do
We stand together we stand by our crew

X2

Let's Go!

Loyal till death tell death what we do
We stand together we stand by our crew
X3Loyal till death tell death what we do
We stand together We stand together We stand together
we stand by our crew
