

# Overtime

Jessie Ware

What you say  
Are you ready for the night to be the day  
Got temptation written all over your face  
Don't you tell me that you only love the chase  
Let's find a way  
Meet me at the bar and don't be late  
I could drink you up like summer lemonade  
Give it to me baby straight, no chase  
Once we get this thing in motion  
We won't have no time to talk  
Moving in the dark, we ain't never gonna stop, oh

(Oh)

We don't need a reason  
We just keep the feeling  
Everybody's sleeping  
We go overtime  
Moving to the future  
Let me see right through ya  
I don't wanna lose ya  
We go overtime  
Drop me a line  
We can do this all the time  
You and I  
Let's go in to overtime  
Drop me a line  
We can do this all the time  
You and I  
Let's go into overtime  
Are you someone  
Someone who could share the point of view  
Say you understand what love is too  
Say you do, say you do  
Baby when we get going  
We won't ever want to stop  
And baby when we kiss  
It's gonna turn the roof up  
We don't need a reason  
We just keep the feeling  
Everybody's sleeping  
We go overtime  
Moving to the future  
Let me see right through ya  
I don't wanna lose ya  
We go overtime  
Drop me a line  
We can do this all the time

You and I  
Let's go into overtime  
Drop me a line  
We can do this all the time  
You and I  
Let's go into overtime Overtime  
Overtime  
Overtime  
Overtime We don't need a reason  
We just keep the feeling  
Everybody's sleeping  
We go overtime  
Moving to the future  
Let me see right through ya  
I don't wanna lose ya  
We go overtime You got me working  
Overtime  
You got me working  
Overtime  
You got me working  
Overtime  
You got me working  
Overtime  
You got me working  
Overtime  
Oh You got me working  
Moving in the dark, we ain't never gonna stop, oh  
Overtime  
Let's go into overtime
