

MAD

2KBABY

Man I used to be a sad cat I want my dad back
Now a N**** havin flashbacks we never had that
This was way before the snapchat and all the cash app
I was wishin could I smash that but I was laughed at
And yeah I ran off on a bad track wish I could back track
Tell that pussy n**** back back I got a bad rep
Never leave without my backpack this aint no rap cap
Man I came down to my last pack, I broke it down and I had gave my brother half that Now I
never leave the fuckin stu bitch Im a lab rat
Watch the way I whip the fuckin coupe I bet I crash that
Got these n**** scared to bust a move I'll drop a fat stack
I love the way my n**** fuckin shoot I call him Mad Max
Now who gon' clap back Im rey' put on my black hat and let you know some fast facts
Aint never wear no snap backs
I rarely use a hashtag
I had cut off that nat nat, don't care if shawty ass fat
If you didn't know me before all these rollies than you gotta show me
And now I got cold feet about who came before me cuz you never told me
I want you to hold me before I go OD don't call on the police
Just keep the shit low key you really my wodie take care of my OG if you really for me Cuz I
treat your mama like I treat my mama we fucked up these commas all types of designer
Took you out of drama where they couldn't find us put you in the line up but you out of line

Please be on the same energy when you see me, yeah
Need sleep feel like I aint been to sleep in three weeks

If i didnt proceed with what guy told me would you ever know me, yeah
If you knew the old me man he was in so deep they said it was OV, yeah

Please be on the same energy when you see me, yeah
Need sleep feel like I aint been to sleep in three weeks
