

Red Man

Kenna

Voice too loud to hear
Laugh too hard to feel
When I fall asleep
I'm a puppet cutting strings When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time Red man's got you crazy, sad, sad
Life is not a daisy, sad, sad
Come on in and save me, come on, come on
I don't mean to bring you down
I don't mean to bring you down
Legs too weak to walk
We live to crawl
Oh, as I fall on my knees
I'm a puppet cutting strings When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time Red man's got you crazy, sad, sad
Life is not a daisy, sad, sad
Come on in and save me, come on, come on
I don't mean to bring you down
I don't mean to bring you down Love lift me high
Heal me tonight
We're gonna try and make it
Love lift me high
Give me the sign
We're gonna live forever Love lift me high
Heal me tonight, yeah
Love lift me high
Heal me tonight Red man's got you crazy
Life is not a daisy
Come on in and save me, come on
I don't mean to bring you down
I don't mean to bring you down
