Red Man

Kenna

Voice too loud to hear Laugh too hard to feel When I fall asleep I'm a puppet cutting stringsWhen your eyes Open large and wide In a different light Eyes open for the sun In a different timeRed man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you down Legs too weak to walk We live to crawl Oh, as I fall on my knees I'm a puppet cutting stringsWhen your eyes Open large and wide In a different light Eyes open for the sun In a different timeRed man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you downLove lift me high Heal me tonight We're gonna try and make it Love lift me high Give me the sign We're gonna live foreverLove lift me high Heal me tonight, yeah Love lift me high Heal me tonightRed man's got you crazy Life is not a daisy Come on in and save me, come on I don't mean to bring you down
