Nicotine & Gravy

Beck

I'll be your chauffeur on a midnight drive It takes a miracle just to survive Your favourite animals call your name You keep on sleeping Through the poignant rainI think we're going crazy Her left eye is lazy She looks so Israeli Nicotine and gravy I'll feed you fruit that don't exist I'll leave graffiti Where you've never been kissed I'll do your laundry Massage your soul I'll turn you over To the highway patrol I think we're going crazy Things don't even faze me Her left eye is lazy Nicotine and gravy Miracles amaze me She looks so Israeli Love the way she plays me I think I'm going crazyI don't want to die tonight
