

15 Years

Houndmouth

15 years on the county line
Love to make that man nearly lose his mind
Down in Arlington, Virginia where the lawmakers stay
A ball and chain never felt so real
Walls of stone 50 miles of steel
When the watergate be partin
I'll be comin home your way
And I wish you could have seen her when the good lord spun me
round
I shoulda known better than to think they could keep a good man down
So please don't you worry
Please don't you ever come see me
Leaving out of Texas for that
East Coast
I was getting married on that night to my surprise
Judge in a cornfield tried a man
He said let him hang and no I never said
When the watergate be partin
I'll be comin home your way
And I wish you could have seen her when the good lord spun me round
I shoulda known better than to think they could keep a good man down
So please don't you worry
Please don't you ever come see me
15 years on the county line
Love to make that man nearly lose his mind
Down in Arlington, Virginia where the lawmakers stay
