

# Love In Stereo

## Donnie Klang

She feelin' me though your girlfriend tellin' me you're ready to go  
On the floor to get my attention she dropped it low  
She was so seductive, I'd pay a fee if she'd let me touch it  
I'm outta my mind the way she looked into my eyes  
She said if you wanna break it down, if you  
wanna break it down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
I said if you wanna break it down, if you wanna break it  
down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
If you're feelin' me though I know a little place where we can go  
Baby let me know if you need a private show  
We can do whatever, you and her dressed in leather  
What's on your mind? Tell me how to do that one more time  
If you wanna break it down, if you  
wanna break it down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
She said if you wanna break it down, if you wanna break it  
down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
If you wanna break it down, if you wanna break it down  
We can break it on down right here  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
Stereo, we can make love in stereo  
I need you both so we can make love in stereo  
So we can make love in stereo  
So we can make love in stereo

So we can make love in stereo
