

Thing for You

Hinder

Well Now that it's morning,
Where do you want to go from here?
Well now that we're sober,
Are you're thoughts of me more clear?
Woah yeah, and now that your head is right,
Did you dig last night?
It keeps playin in my mind.'Cause girl I gotta thing for you.
And I think it's kinda crazy,
'Cause I know that you have someone too,
Wonderin where you were last night.
For now I'll say goodbye, but don't think we're through,
I gotta thing for you...
Well now that you're home,
Will he be the first thing that you see?
I know you'll compare us,
But how does he match up next to me?No, Yeah, now that your head is right,
Did you dig last night?
It keeps playin in my mind.
'Cause girl I gotta thing for you.
And I think it's kinda crazy.
Cause I know that you have someone too.
wonderin where you were last night.And girl i gotta thing for you,
And I know last night was hazy,
But I still remember wakin up and kissin your head one more time...
But now I'll say goodbye, don't think we're through,
I gotta thing for you...
Well I remember layin your head down,
I remember lovin all your sounds.I gotta thing for you.
And I think it's kinda crazy,
'Cause i know that you have someone too,
Wonderin' where you were last night,
And girl I gotta thing for you.
And I know that night was hazy,
But I still remember wakin up,
And kissin your head one more time.
For now i'll say goodbye, but don't think we're through,
I gotta thing for you...
