

# Come to Life

## Alter Bridge

Hey, tore away the veil of weakness  
The enemy now lies beneath us  
I think we're safe Hey, won't be held down any longer  
No disgrace and no dishonor  
Keep us chained There's nothing we should have to fear  
It's alright  
We've come to life We'll never shed another tear  
It's alright  
We've come to life Hey, the bulletproof are so resilient  
To every fool with an opinion  
They never break  
Oh... by the way  
We scream to find a reason  
Never doubt or stop believing  
And escape There's nothing we should have to fear  
It's alright  
We've come to life We'll never shed another tear  
It's alright  
We've come to life (solo) Now wicked tongues can speak  
And rewrite history  
But you can't keep the truth contained  
And like this song was sung  
Just realize we're one  
And don't forget we're here to stay  
There's nothing we should have to fear  
It's alright  
We've come to life We'll never shed another tear  
It's alright  
We've come to life
