

Know One Knows

A Change of Pace

Cut me open
Let me bleed for what I've done
Tell me straight-faced
That I'm the only one
Destroy me
Am I not everything you need?
Don't move, don't breathe
As I take every breath from you Know one knows what I've done
And as I wait, I'm dying (For you)
Take me out of this picture frame
Breathe slow, don't move
As I say goodbye
Replace you
Cross my heart I hope you die
Ripped in pieces
You're my perfect tragedy Know one knows what I've done
And as I wait, I'm dying (For you)
Cut me, breathe slow
Break me, tell me as I die for you, for you...
(Know one knows what I've done)
Know one knows what I've done
And as I wait, I'm dying Know one knows what I've done
And as I wait, I'm dying (For you)
