

Cough It Out

The Front Bottoms

Its snowing right now,
i wish it was summer
but when the summer rolls around
i wish i was freezing they don't call me mr greenside for no reason
when they do, i pause and cough it out
i cough it out, x3
i cough it out all the branches on the tree
when we carved our initials
and seemed to bend and take shape of them
and ahh can't you see
i am delusional with love x3
i don't care if you're not sorry i forgive you
and with or without your support i will continue
what I'm trying to say is
you never know what you've been through
do you pause and cough it out
i cough it out, i cough it out, i cough it out
i cough it out all the branches on the tree
when we carved our initials
and seemed to bend and take shape of them
and ahh can't you see
i am delusional with love, i am delusional with love, i am delusional with love i am delusional
with love, i am delusional with love, i am delusional with love but whatever i did for you last
year i cannot do again
its getting harder and harder and harder for me to call you a friend
no matter how many times i say i won't
i defend you if i can
but whatever i did for you last year i cannot do again
i like the in between
i like the time it takes to get somewhere
if you know what i mean
wave your hands in air like you just don't care
i just don't care x5 all the branches on the tree
when we carved our initials
and seemed to bend and take shape of them
and ahh can't you see
i am delusional with love x3 but whatever i did for you last year,
i cannot do again.
i will not do again.
