

# Miles to Your Heart (Yves V Remix)

## Sultan + Shepard, Rock Mafia & Bahari

Oh, I'm on my way  
Counting down the miles to your heart  
Oh, I can hardly wait I just want to be right where you are  
I just want to be right where you are I can't stand the distance  
It's like a hole in my sky  
Yeah, all this independence  
It's just a waste of my time  
Don't need navigation  
I'll just follow the signs  
There's no holding me back now  
Yeah, I made up my mind  
Oh, I'm on my way  
Counting down the miles to your heart  
Oh, I can hardly wait  
I just want to be right where you are  
I just want to be right where you are I'm counting down the miles Don't need an invitation  
Yeah, I know how you feel  
I'll drive as long as it takes me  
I got both hands on the wheel Oh, I'm on my way  
Counting down the miles to your heart  
Oh, I can hardly wait  
I just want to be right where you are  
I just want to be right where you are  
Oh, I'm on my way  
Playing tiny dancer in the dark  
Oh, I can hardly wait  
I just want to be right where you are  
I just want to be right where you are (I just wanna be right where you-be right where you  
I just wanna be right where you  
Are)  
(I just wanna be right where you-be right where you  
I just wanna be right where you) There's no holding me back now  
Yeah, I made up my mind Oh, I'm on my way  
Counting down the miles to your heart  
Oh, I can hardly wait  
I just want to be right where you are  
I just want to be right where you are
