

# Blood Runs Cold (feat. Sean Price)

## Jedi Mind Tricks & Sean Price

f/ Sean PriceYeah

Sean P, Ya Mean

Jedi Mind Tricks, MFC(Sean P aka Ruck)

Yeah first of all don't make me burst and brawl

Image is nothin you frontin see the thirst in ya'll

Think its fucked up now it get worst for ya'll

Assassinate your best friend now I hurt you par

Run up on your block wit dough and I curse you all

The fuck out you wanna wet duke squirt your four

Since birth I been raw hot like surface core

Kidnap your baby's mom straight earth the whore

See I do rhyme and crime so I can purchase more

If you ain't in it for that what the purpose for

Act like you don't give a fuck though

Good so I buck fo' shots from the roof

and my man Rock catch you up close

Never give a fuck about niggas ya'll not Nutso

Hype off of carbonated water then some fructose

Straight buck foes when the nigga Ruck pull the snub nose

Wait Ruck chill, what the deal its all love though

Look into my eyes and you can see there's something changed

Runnin gunnin things knockin niggas out like Clubber Lang

With the gun I bring its straight for beatin you down

Heatin you down leavin you six feet deep in the ground

(Vinnie Paz aka Ikon the Verbal Hologram)

It's some real motherfuckers goin rot tonight

All your jewels and your cash gettin got tonight

Or somebody in the club gettin shot tonight

Sean Price, Jedi Mind keep it hot tonight(Jus Allah)

Im the motherfucking ungrateful

My heart is hateful, my tounge ripped

Lickin on the blade that slayed you

You faggots act as bitch as Rupaul

Ya niggas share one milkshake wit two straws

Scrap wit no doors, four walls tighten

Seein the roof fall, feelin the floors heighten

Crushed and shit your bones and blood siphon

And put it to the jug we sip before fightin

Im raw lightning my power extends

In the planet and out through the opposite ends

Black man travel through the universe and back

While cavemen still though that the earth was flat

But we kept the sacred plans, now we carry  
Throughout the ancient lands  
Before the separating of the sands  
Of course all the power I create in my hand  
He bare my G strength in replicating in man  
(Vinnie Paz aka Ikon the Verbal Hologram)  
It's some real motherfuckers goin rot tonight  
All your jewels and your cash gettin got tonight  
Or somebody in the club gettin shot tonight  
Sean Price, Jedi Mind keep it hot tonight(Vinnie Paz aka Ikon the Verbal Hologram)  
Im tasteless, there's beauty in strange places  
I find beauty in razors  
I find beauty in blood drippin from ya faces  
I find beauty in the Qua'ron and all of its Aramaic equations  
I find beauty in twelve gauges  
I find beauty in teaching you what the definition of pain is  
I find beauty stainless steel,  
that can kill and reveal the front of your grill  
Your brainless, ya'll don't wanna test Vinnie Paz patience  
I crack jaws and swing swords of the ancients  
Ya'll pretended to understand the matrix  
Without attempting to overstand its basics  
We dedicated to cats that's been thuggin  
Vinnie Paz got more hoes then Jim Duggin  
Ya'll been duckin for quite some time now  
Vinnie bout to teach you how to write some rhymes now  
We aim beams in between your eye brows  
Jedi Mind Sean P combine nowChorusScratching x's 2  
I rap like no one out there can fuck wit me (Prodigy)
