

Baby Please Don't Stop

[Emma Bunton](#)

Baby, please don't stop...Something's taking over my heart
Caught me in a moment of weakness
Boy, you had me from the start
Now all I wanna taste is your sweetnessSo what's the point in trying to fight it
You've got me in the palm of your handYou can shake me down
You can wind me up
You can drive me crazy
Baby, please don't stop
I'm going out of my head
Need to feel your love
Boy, too much can never be enough
So, baby, please don't stop
Something's taking over my mind
And that's a place that I've never been to
I'm not the infatuation kind
But it happened from the moment I met you
So what's the point in trying to fight it
I want you more than I can standFurther I fall, the deeper I'm in
The more I lose it, the more I win
So, baby, please don't stop?
