

Hex

Mt. Wolf

Embrace the cold
Embrace my heart
Our love grown old
At least for each and one point Oho, white skin to me
Now I stay It will be hard to break for me
It will be hard to break for you Pick up your skin from mine
Pick up your skin from mine
Time, one last time
Time won't feel it's coming
It will be hard to break for me
It will be hard to break for you
Pick up your skin from mine
Pick up your skin from mine
It will be hard to break for me
It will be hard to break for you Pick up your skin from mine
Pick up your skin from mine
