

Love Is Gonna Make Us Stronger (Accu Remix)

Ted Striker

The speed of light
I can see fallin'
Burning down from the sky
Flaming through, the nightIn a wall of sound
I can hear callin'
For me when my heart speed of love
So affraid of letting you goDid you ever notice
I can never beat this
I can not believe this
Why you never help me closerCan we RETRY once again (RETRY once again)
Did you ever see how
I can never say no
I can never let go
Love is gonna make us strongerCan we RETRY once again (RETRY once again)As a man with
faith
Fighting them rejections
They can hold them so tight
Flowing through, the nightSpining to the ground
I can see reflections
Of you, raining down from the clouds
What was here's been turning coldDid you ever notice
I can never beat this
I can not believe this
Why you never help me closer
Can we RETRY once again (RETRY once again)Did you ever see how
I can never say no
I can never let go
Love is gonna make us strongerCan we RETRY once again
