

My Own Sake

Nonpoint

YEAH! Just be patient
The best advice
I did not take
Superstellar
First impression
I did not make
Yea, My own inse-
Curities are
Not as bad as
You make them out
To be, and our
Time is running out so fast
I move this fast
And I make mistakes
For my own sake
For my own sake
I move this fast
And I make mistakes
For my own sake
For my own sake Can't you see that
All of your
time is wasting
While where wasted
Tripping over and over and over
Our own feet when
We look too hard
For what's older, older, yes older
Then the day we
Got to this world
That's enough for,
Me to make a
good impression
When I'm walking through the door
I move this fast
And I make mistakes
For my own sake
For my own sake
I move this fast
And I make mistakes
For my own sake
For my own sake
For my own sake I'll do what I have to

To be everything you want me to
Without putting you through all the questions
I'd like to mention
To you I move this fast
And I make mistakes
For my own sake
For my own sake
I move this fast
And I make mistakes
For my own sake
For my own sake
For my own sake
For my own sake
For my own
Sake
