

# Burn You Up

## Boston Manor

Swallow your words & maybe some teeth as well.  
Cause we let the wolf in, but he never did a sheep well.

How do you fit it in?

How do you fit it all in?

How do you fit it in?

Do you hate me?

Do I just burn you up?

Do you hate me?

I hope to god you hate me.

Fingers crossed behind your back.

You poisonous snake, who taught you to lie like that?

You better get used to this, cause i'm going no where.

You better get used to this, cause i'm staying right here.

You're a mirror with no reflection, there's no end to your deception.

There's blood on your hands.

So wash it off.

(Just wash it off)

There's blood on your hands, so wash it off.

Fingers crossed behind your back.

You poisonous snake, who taught you to lie like that?

You better get used to this, cause i'm going no where.

You better get used to this, cause i'm staying right here.

You'd better get used to this

You'd better get used to this

You'd better get used to this

You'd better get used to this

Fingers crossed behind your back.

You poisonous snake, who taught you to lie like that?

You better get used to this, cause i'm going no where.

You better get used to this, cause i'm staying right here.

You'd better get used to this.
