

# Lovergirl

## Teena Marie

Hee...Sugar pop  
Funky popsCoffee, tea or me, baby, touché olé  
My opening line might be a bit passé, yes  
But don't think that I don't know what I'm feeling for you  
'Cause I got a vibe on you the first time that I saw you, saw youI need your love and I won't  
bring no pain  
A little birdie told me that you feel the same  
I'm for the real and for you I'm true blue  
Let's make a deal, sugar, all I want to do is be your one and only lover  
I just want to be your lovergirl  
I just want to rock your world  
Hey... hey... hey...Hook, line and sinker baby, that's how you caught me  
My second verse might be a bit old hat  
But don't think that I don't know what it's doing to me  
'Cause I got a vibe on you the first time you saw through me, through meI need your love and I  
won't bring no pain  
A little birdie told me that you feel the same  
I'm for the real and for you I'm true blue  
Let's make a deal, sugar, all I want to do is be your one and only loverI just want to be your  
lovergirl  
I just want to rock your world  
Hey... hey... hey...I just want to be your lovergirl  
I just want to rock your world  
Hey... hey... hey...  
Baby, let me groove you  
Let me groove into your love  
I just want to be your lovergirl  
Let me prove it to you  
Baby, let me rock your world  
I just want to rock your worldBaby, let me soothe you  
Let me smooth into your love  
I just want to be your lovergirl  
Let me prove it to you  
Baby, let me rock your world  
I just want to rock your worldCoffee, tea or me, baby, touché olé  
My opening line might be a bit passé  
But don't think that I don't know what I'm feeling for you  
'Cause I got a vibe on you the first time that I saw you, whoa...When the push comes to shove  
And you need a little love  
Let me put some rock into your world  
Call me up don't be shy  
For my love will make you high

I just want to be your lovergirl
