

The Domino Decree

Iced Earth

Cause, this is the creed that brings effect
That of which mankinds besieged
By our plans devised infect
Kings and empires rise and fall
By the rose and our decree
Of the elders prophecy
That rids us of the human threat
And frees the band of destiny Fate by our dominion
In their sovereign states
Fall like dominos
Framing mankinds fate
Kill! Assassinate the ones that lead
By their example we deceive
With religions we create
Martyrs, saviors and their slaves
To a sad sadistic need
To crucify a puppet king
Of a selfish vile race
That is filled to the core with greed Fate by our dominion
In their sovereign states
Fall like dominos
Framing mankinds fate Divide! Mankind!
Destroy! Their kind!
Fear will make us free
Cast doubt through history DIVIDE!
Fate by our dominion
In their sovereign states
Fall like dominos
Framing mankinds fate Fate by our dominion
In their sovereign states
Fall like dominos
Framing mankinds fate
