

S#1T Happens

[Bridget Kelly](#)

There was no second guessing,
You were my baby, I was yours...
Like a charm to a bracelet,
You were all I been waiting for...
Had to wonder if I met you in a past life...
I let go...
Cuz kissin' you was like breathin' for the first time. Then along came the lies, followed by
alibies...
arguments led to fights, fights went through the nights...
But I stuck by your side, every single time,
Still willing to try, cuz I realized...
Shit happens Shit happens See whatever don't kill us, makes us stronger...
So we stick it out just a lil' bit longer... oooh
Shit happens Going back to where we started,
You're my lover and my best friend, again...
If the sky comes a fallin', I'll ride or die 'til the very end...
I never thought I'd find somebody who could treat me right...
But then...
You slipped up and I found out about the other night... Shit happens Shit happens See whatever
don't kill us, makes us stronger...
So we stick it out just a lil' bit longer... oooh
Shit happens Oh, ooh oh, ooh oh, ooh oh... But as the seasons start to change...
And emotions rearrange...
We begin to point the blame...
But baby...
I'ma love you anyway Shit happens Shit happens See whatever don't kill us, makes us stronger...
So we stick it out just a lil' bit longer... oooh
Shit happens It happened, it happened, yeaaa...
Shit happens.
