

# Bone Marrow

## Mellowdrone

Still broken, shut the door  
you know i've never see any of these people before  
you know it sounds so nice when it comes from a friend  
i say we all get balled up and let it begin  
Slowly we sink after years of waiting  
hand it over softly  
before somebody else gets hurt  
Light my hands on fire  
my sweet angel  
take my oxygen  
my bonemarrow  
whatever you do  
don't stop 'til you do  
it will be alright  
it'll be alright  
take my oxygen  
my sweet angel

Oh no, let's put the drugs in the back  
just like old times in your brown pontiac  
i used to be so strong(?)  
but now there's more, there's more  
Slowly we sink after years of waiting  
hand it over softly  
before somebody else gets hurt  
Light my hands on fire  
my sweet angel  
take my oxygen  
my bonemarrow  
whatever you do  
don't stop 'til you do  
it will be alright  
it'll be alright  
take my oxygen  
my sweet angel
