

# Two Hearts

## Deptford Goth

Many heads may roll  
But there's nothing quite like two hearts  
We've got peace in us,  
We've got peace in us  
Fell a mountain down  
But there's nothing quite like two hearts  
We've got peace in us,  
We've got peace in us  
Wishing all the parts of who we are  
Life greater than what we do  
But it's never gonna come straight to you,  
And it's never gonna leave you alone.

Love, love  
Is another  
Love, love  
Is another  
Love, love  
Is another  
Love, love  
Is another

Many eyes will close  
But there's nothing quite like two hearts  
We've got peace in us  
We've got peace in us  
Many bridges fold  
But there's nothing quite like two hearts  
We've got peace in us  
We've got peace in us  
Wishing all the parts of who we are  
A life greater than what we do  
But it's never gonna come straight to you,  
And it's never gonna leave you alone

Love, love  
Is another  
Love, love  
Is another  
Love, love  
Is another  
Love, love  
Is another.
