

Always Ascending

Franz Ferdinand

[Intro]

[Repeated throughout intro]

Put your ladder down

Put your ladder down

Put your ladder down

Put your ladder down

Put your ladder down Don't be concerned

It's just the way that gravity works round here

All slowly rising

Falling patiently

Feel no

Feel no fear

Cirrus caress you

Cumulus kiss you

Raindrops of crystal

Whisper "we'll miss you"

But go

Let go [Verse 1]

Always and always and always ascending

The opening line leaves an uncertain ending

Always and always and always ascending

The chords seem to pause, but ahh- Never going to resolve

Never going to resolve

Never going to resolve

Never going to resolve

Never going to resolve

Never going to resolve

Never going to resolve

Never going to resolve

Talk to me

Talk to me

C'mon talk to me

Talk to me

Yeah talk to me

Talk to me

Ahh [Pre-Chorus]

Wake me up

C'mon wake me up [Chorus 1]

Waking up dry

Waking up dusty

Feeling remorse

Feeling thirsty
