

Automatic (feat. Jenn Wasner)

Big Data

I feel so much better today
Now that you're mine
Couldn't do it alone
And I never will again You're my eyes, my feeling my hands
The thoughts in my mind
I don't even have have to try, you make me better than I am
Than I am
So much better than I can Automatic
I give up, give up
Here I am, don't you want me to do it again
(It's automatic, it's automatic)
Here I am, cause you need me to do it again
(It's automatic, it's automatic)
I feel so much better today
Now that it's time
Can't remember my name
But you can tell me who I am There's no shame in making it easy
(It's not easy)
I don't even have to try
You do it better than I can
Than I can
So much better than I can Automatic
I give up, give up
Here I am, don't you want me to do it again
(It's automatic, it's automatic)
Here I am, cause you need me to do it again
(It's automatic, it's automatic)
(All let go)
I'm ready, if you let me
(Take control)
Just forget, it's all automatic
I be the one to make your heart beat right
Walking in circles I speak your mind
I'll breathe your air to make you feel alive
(Automatic)
I need a feeling, you scared and run
Pay your attention, be your house and home
I'll keep you company and never be alone Automatic
I give up, give up
Here I am, don't you want me to do it again
(It's automatic, it's automatic)
Here I am, cause you need me to do it again

(It's automatic, it's automatic)
(All let go)
I'm ready, if you let me
(Take control)
Just forget, it's all automatic I feel so much better today
Now that you're mine
