

Do You Know What Is Right? (feat. Noah Cyrus)

Kid Trunks

I feel your love when I smile
But can you wait
For me when I come around
Distance in love when I hate
My heart is numb to the pain
Fool me and kill me with hate
My heart is numb to the pain
Fool me and kill me with hate I feel so dead in my mind
Losing you, it made me cry
My heart can't take it, I'll try
I can't forget 'bout those times
Depression changing my life (Yeah)
But fuck it, you know what is right
I feel your love when I smile
But can you wait
For me when I come around
Distance in love when I hate
My heart is numb to the pain
Fool me and kill me with hate
My heart is numb to the pain
Fool me and kill me with hate Wipe the tears from your eyes
Always—always try to make you smile, oh
Tell you everything will be alright
But you knew it'd be a lie, oh
And even though I can't reach you
Every night I'm praying to God, oh
I'm a big girl now, but baby, big girls still cry
And I need ya
I feel your love when I smile
But can you wait
For me when I come around
Distance in love when I hate
My heart is numb to the pain
Fool me and kill me with hate
My heart is numb to the pain
Fool me and kill me with hate I feel your love when I smile
Fool me and kill me with hate
But can you wait?
