

# Silver

## Minus the Bear

The morning winter sun blinds my eyes  
Cold while I go find its way  
Close, I see red  
Shapes in lead  
Cool wind keeps my eyelids  
You'd steal the coins from my eyes if I was on that river  
If I was on that river, you'd leave me no respite  
Eyes open and blind  
The wave on the tide  
And you keeping time  
Keep floating down the line  
Eyes, cold truth comes to light  
I come home to haunt you now  
Nowhere to hide, count the lies  
My every stitch you throw down  
You'd steal the coins from my eyes if I was on that river  
If I was on that river, you'd leave me no respite  
Eyes open and blind  
The wave on the tide  
And you keeping time  
Keep floating down the line  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night  
You talk, oh you're pissed  
Lonely ghost sneaks inside  
In your thoughts, unties your knots  
On the sheets around your bed  
I'm haunting you through cold eyes  
Haunting you from haunted skies  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night  
You'd steal the coins from my eyes if I was on that river  
If I was on that river, you'd leave me no respite  
Eyes open and blind  
The wave on the tide  
And you keeping time  
Keep floating down the line  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night  
Bring on all night, Bring on all night
