

Perfect Stranger

The Enemies

Are we alone?
Forever finding our way home?
Or have we lost the skill to navigate this course?
Still we try, to keep ourselves alive,
For reasons why, others will get left behind
Might have known you'd be my savior,
when I'd fallen out of favor,
Might have known you'd be my savior
You saved this perfect stranger
Who we are all comes down to what we know,
Who we become, surely time will tell us when to run,
Or walk in the light,
the warmth just feels so right,
The question burns,
never know which way to turn
Might have known you'd be my savior,
when I'd fallen out of favor,
Might have known you'd be my savior
You saved this perfect stranger
Might have known you'd be my savior,
when I'd fallen out of favor,
when I'd fallen out of favor,
You saved this perfect stranger
All we stand for, all we know,
where we come from, where we go
All we stand for, all we know,
where we come from, where we go
Might have known you'd be my savior,
when I'd fallen out of favor,
Might have known you'd be my savior
You saved this perfect stranger
Might have known you'd be my savior,
when I'd fallen out of favor,
when I'd fallen out of favor,
You saved this- saved this perfect stranger
