Heat of the Summer

Young the Giant

No one can take me out of this mess
I do it to myself
I lost my phone, my keys, what else?
The answer doesn't help
I'm paranoid as hell and I wanna
out there's no place to run Feel like it's b

Go home but there's no place to runFeel like it's been forever

Since I had my shit together

I just do what I wanna

In the heat of the summer

If I could roll up another

Baby I could see in technicolor

I just do what I gotta

In the heat of the summer

In the heat of the summer

I've got to figure something out

But I don't know where to start

I found my keys under the couch

But I'm scared of going out

Having all these doubt and I'd rather

Stay home cuz there's no place to runFeel like it's been forever

Since I had my shit together

I just do what I wanna

In the heat of the summer

If I could roll up another

Baby I could see in technicolor

I just do what I gotta

In the heat of the summer

I'll be wasting time

In the sunshine

I'll be flying high

In the summer time

Feel like it's been forever

Since I had my shit together

I just do what I wanna

In the heat of the summer

If I could roll up another

Baby I could see in technicolor

I just do what I gotta

In the heat of the summer

In the heat of the summer
