

# Warm On A Cold Night

HONNE

"Okay, it's 3:17 AM. You're tuned in with your main man Tommy Inglethorpe. This next song's gonna keep you warm on a cold, cold night. So if you don't got a lover, just close your eyes.

And listen, to Honne.

Like a rabbit in headlights

They're stunned by all your charm

And I feel so damn lucky

To have you on my arm And I can't help but wonder

How we ended up alright

And I love you like no other

Cause this has never felt so right Yeah you can keep me warm on a cold night

Warm on a cold cold night

Yeah you can keep me warm on a cold night

Warm on a cold cold night

I want to treat you something special

Give you what you deserve

I want to take you to paradise

In a 1950's Merc

And I can't help but wonder

Just how we ended up alright

And I love you like no other

And this has never felt so right

You can keep me warm on a cold night

Warm on a cold cold night

Yeah you can keep me warm on a cold night

Warm on a cold cold night

Girl you can keep me warm

You can keep me real warm

There's just one thing Girl you could have anyone

So why you choosing me and not leaving me on my own?

Girl you could be with anyone

So thanks for making me your number one

You can keep me warm on a cold night

Warm on a cold cold night

Yeah you can keep me warm on a cold night

Warm on a cold cold night Yeah wrap me up and keep warm on a cold night

Warm on a cold cold night

Oh yeah you can keep me warm on a cold night

Warm on a cold cold night
