

# Up We Go

## Lights

Here, in a familiar place  
We got our heads down  
And we pretend its 'cause the night  
Is dark, and running out of space  
For us to run around  
But it's a dead end and money's tight  
And its been a long time, of this  
Something has got to give  
Everyone here is ready to go  
It's been a hard year with nothing to show  
From down this road, it's only on we go, on we go  
Everyone here is ready to go  
It's been a hard year and I only know  
From down this low, it's only up we go, up we go  
Let's get on another flight  
Maybe set out to sea  
Pick it up and shake our fist at it  
'Cause death, is harder to come by  
Than it is to breathe  
When you got to make or break for it  
And its been a long time, of this  
Something has got to give  
Everyone here is ready to go  
It's been a hard year with nothing to show  
From down this road, it's only on we go, on we go  
Everyone here is ready to go  
It's been a hard year and I only know  
From down this low, it's only up we go, up we go  
Nothing gives easy  
Easy gives nothing  
I'm just trying to keep income coming in  
Dawn is bound to break  
When the night is done  
Always darker days, before brighter ones  
Everyone here is ready to go  
It's been a hard year with nothing to show  
From down this road, it's only on we go, on we go  
Everyone here is ready to go  
It's been a hard year and I only know  
From down this low, it's only up we go, up we go
